County Clerk

**Dust Control Acknowledgement – Johnson County, Missouri**

Below is an excerpt of the Dust Control Requirements from the 2018 Johnson County Amended Rules and Regulations for Establishment, Acceptance and Maintenances of County Public Roads and Platted Subdivision in Johnson County, Missouri (complete document is available at [www.jococourthouse.com](http://www.jococourthouse.com) or by calling 660-747-6161).

**DUST CONTROL REQUIREMENTS:**

1. All dust control products **must be approved** by the Johnson County Commission.
2. Johnson County will not be responsible for any damage caused by a dust control product.
3. Landowners will pay for all dust control products applied to roads.
4. All products must be approved by the Environmental Protection Agency.
5. Landowners will be required to display appropriate signs at the time of application at the starting and ending points and at any intersecting roads in between. Attached sign description and requirements.
6. The Johnson County Commission must be notified in writing at least one (1) week in advance of the application of any dust control product.
7. Johnson County will do everything possible not to disturb the product applied to the roadbed. If it becomes necessary to maintain the road for any reason, work required to keep the roads safe will be done. The county will not be responsible for loss of dust control product due to road maintenance.

I, \_\_\_\_\_, acknowledge and agree to comply with the above dust control requirements including, but not limited to, displaying appropriate signs at the starting and ending points and at any intersecting roads in-between. The dust control product, \_\_\_\_\_, will be applied by \_\_\_\_\_

Form Updated: January 25, 2022

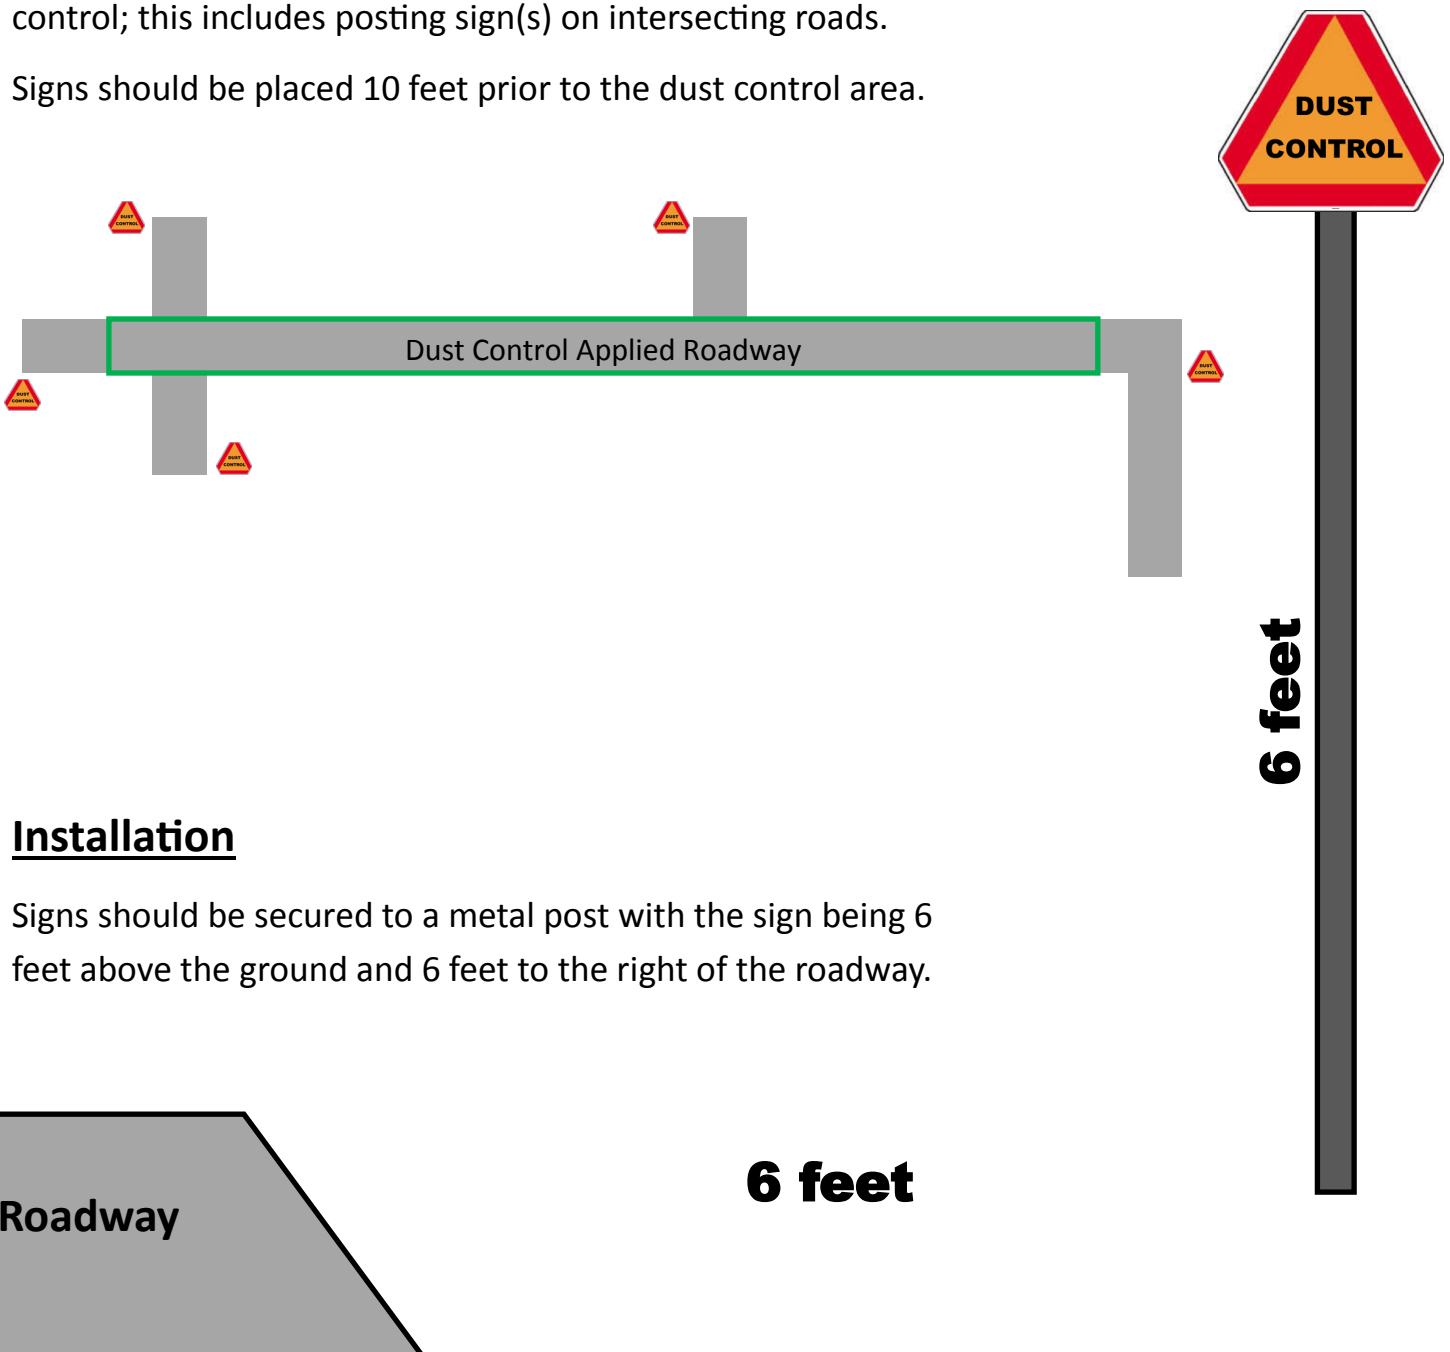

## Sign Description

16" x 14" reflective aluminum sign (often used for slow moving vehicles) with "DUST CONTROL" in vinyl letters  
Attached to a metal post for a 6 feet installed height.

## Placement

Signage is needed to identify any roadway with applied dust control; this includes posting sign(s) on intersecting roads.

Signs should be placed 10 feet prior to the dust control area.

## Installation

Signs should be secured to a metal post with the sign being 6 feet above the ground and 6 feet to the right of the roadway.
