Johnson County Courthouse Entryways Assessment and Design

Below are the received questions (black) and the County's response (blue), accordingly:

When is construction expected to begin?

This Request for Qualifications for Professional Services is not a construction project. This is a study or assessment. Any future construction is unknown and not guaranteed.

What is the project budget or firm value?

In Missouri, public entities, utilizing tax payer dollars in any form, must procure for professional services (Architecture, Engineering and Land Surveying) through the Qualifications-based Selection (QBS) process whereby the final scope of services and corresponding cost is negotiated with the highest scoring professional services firm. A budget or firm value is not a consideration at this point.
